BOSTON AND NEW YORK

It is surprising and very gratifying to discover how many links there are connecting El Paso with the East.

I have never had a meeting when several did not stay presented by the department of art of the women's club, at the club meeting, Wednesday afternoon, to be held in the club building on Mesa avenue. Mrs. G. A. Martin will give a paper on art

Advantage of Roofless

Just use your common reasoning, and look at these two pictures above.

The advantages are not so much a clear roof, but:

1. Do not slip when eating corn on the cob, as the leverage is not there.

2. Can be put in immediately after extraction—as there is no roof to hold them, they are up with the gums, giving a permanent fit you could not possibly get in any other plate.

3. Naturally they can be made to fit any mouth, as the roof—deep, shallow, flat—does not have anything to do with them.
